

Brand New Day

Darkness closes in on me
Tossed upon a troubled sea
Cold, defeated, on my knees
I'm waving but nobody sees - Nobody sees

Chorus

Hope can be what pulls me through
Everything is nothing without you
One thing that I know is true
Tomorrow is a brand new day
My heart will always guide my way
My heart will always guide my way

Kicking to get myself ashore
I know I deserve so much more
Sometimes it feels too heavy to bear
But I'm so close, I'm almost there - I'm almost there.

Chorus

Here I am I've reached the light
I've climbed up to a whole new height
(There's a) better place where I belong
Standing tall and feeling strong - Yes I am strong.

Chorus

BRIDGE

I've had to fight just to defend
Don't want to break, I've learned to bend
I'm looking for the chance to start again
